RE: PE15N Operation

We, Summit Data Communications, Inc. attest that this device, the SDC-PE15N, is fully compliant with all applicable FCC rules. In particular, the SDC-PE15N does not support ad-hoc/peer-to-peer operation in the DFS bands (5250-5350 and 5470-5725 MHz); when operating in these bands, the SDC-PE15N will always do so in the presence of a DFS master device.

In addition, the SDC-PE15N does not allow for operation in the 5600-5650 MHz bands.

Sincerely,

A handwritten signature in black ink that reads "Ronald Seide". The signature is written in a cursive style with a large initial "R" and a long, sweeping underline.

Ronald Seide
President
Summit Data Communications, Inc.
