Dear Steve

For this project, our client agrees to add your suggestion on page 15 of manual.

TCB Review Comments for (A06-0706d- TWG-SDMCF10G, 950331L08- Summit 11g CF Module)

-EMC-

Question #1: If limit channels is not done by the grantee, P15 need to add one more condition (as suggested below) to the OEM conditions:

- For all products market in US, OEM has to limit the operation channels in CH1 to CH11 for 2.4G band by supplied firmware programming tool. And OEM shall not supply any tool or info to the end-user regarding to change the Regulatory domain.
