English

For U.S. models
FEDERAL COMMUNICATIONS COMMISSION DECLARATION OF CONFORMITY
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1) this device may not cause interference, and
2) this device must accept any interference, including interference that may cause undesired operation of the device.
Product Name : High Fidelity Audio Player
Responsible Party : XDP-30R
Responsible Party Address : Pioneer Home Entertainment U.S.A.
Address : 18 PARK WAY, UPPER SADDLE RIVER, NEW JERSEY 07458, U.S.A.
Phone : 1-844-679-5350

FC Contents

FCC ID : TX2-RTL8821AU
IC : 6317-RTL8821AU

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an authorized radio/TV technician for help.

Radiation Exposure Statement:
This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured to not exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
The exposure standard for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg.
* Tests for SAR are conducted using standard operating conditions accepted by the FCC with the device turned on at its highest certified power level in all tested frequency bands. This device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and is positioned a minimum of 0.5 cm from the body.
FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

For Canada
This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions:
1) this device may not cause interference, and
2) this device must accept any interference, including interference that may cause undesired operation of the device.
This Class B digital apparatus complies with Canadian ICES-003.
This device is an antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.
The County Code Selection feature is disabled for products marketed in the US/Canada.

Caution:
1) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems,
2) the maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall comply with the e.i.r.p. limit, and
3) the maximum antenna gain permitted for devices in the band 5725-6025 MHz shall comply with the e.i.r.p. limits specified for point-to-point and non point-to-point operation as appropriate.
4) Users should also be advised that high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

5G Band 1 : 5G Band 1 is for indoor use only

WARNING:
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE.
CAUTION:
TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

Important safety instructions

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Use only the cart, stand, tripod, bracket, or table specified by the manufacturer and approved for use with this apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tipping over.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Damage Repair Service
Unplug the apparatus from the wall outlet and refer servicing to qualified service personnel under the following conditions:
A. When the power-supply cord or plug is damaged.
B. If liquid has been spilled, or objects have fallen into the apparatus.
C. If the apparatus has been damaged or if the power cord or plug shows signs of damage.
D. If the apparatus does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an employee authorized to perform repairs is required to make the adjustment.
E. If the apparatus has been dropped or damaged in any way and this indicates a need for service.
F. When the apparatus exhibits a distinct change in performance this indicates a need for service.
- Objects and liquid
Never push objects of any kind into the apparatus through openings as they may touch dangerous voltage points or short-out parts which could result in a fire or electric shock.
WARNING
The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids such as vases should be placed on the apparatus.
Don't put candles or other burning objects on top of this unit.
- Batteries
Always consider the environmental issues and follow local regulations when disposing of batteries.
- If you install the apparatus in a built-in installation, such as a bookcase or rack, ensure that there is adequate ventilation.
Leave 20 cm (8") of free space at the top and sides and 10 cm (4") at the rear. The rear edge of the shelf or board above the apparatus shall be set 10 cm (4") away from the rear panel or wall, creating a fan-like gap for warm air to escape.
WARNING: The mains plug is used as disconnect device, the disconnect device shall remain in the open position.
CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

Operating Environment

Operating environment temperature and humidity:
+5 °C to +35 °C (+41 °F to +95 °F), less than 85% RH (cooling vents not blocked).
Do not install this unit in a poorly ventilated area, or in locations exposed to high humidity or direct sunlight (or strong artificial light).

For European Models

To prevent possible hearing damage, do not listen at high volume levels for long periods.
Important notice
Never disseminate this unit at any time other than before disposal.
When disposing of used batteries, please comply with governmental regulations or environmental public institution's rules that apply in your country/area.
CAUTION
Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer.
Information to User
Although it is recommended that you do not use this unit without appropriate authorization may invalidate the user's right to operate the equipment.
IMPORTANT NOTICE
THE MODEL NUMBER AND SERIAL NUMBER OF THIS EQUIPMENT ARE ON THE REAR OF THE BOTTOM COVER.
RECORD THESE NUMBERS ON YOUR UNCLOSED WARRANTY CARD AND KEEP IN A SAFE PLACE FOR FUTURE REFERENCE.
Preventing Hearing Loss
Caution
Excessive sound pressure from earphones and headphones can cause hearing loss.
The Safety of Your Ears is Your Hands
Get the most out of your equipment by playing at a safe level - a level that lets the sound come through clearly without annoying ringing or distortion and, most importantly, without affecting your sensitive hearing.
Sound can be deceiving. Over your years, your hearing "comfort level" adapts to higher volumes of sound, so what sounds "normal" can actually be loud and harmful to your hearing. Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.
BE SURE TO OBSERVE THE FOLLOWING GUIDELINES:
- Do not wear any headphones or earphones for more than 1 hour at a time.
- Use caution or temporarily discontinue use in potentially hazardous situations.
- Do not use headphones while operating a motorized vehicle; the use of headphones may affect traffic hazard and is illegal in many areas.
ESTABLISH A SAFE LEVEL:
- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.
- Once you have established a comfortable sound level, set the dial and leave it there.

Batteries and Heat Exposure

Warning
Batteries (battery pack and Wetted Handles) shall not be exposed to excessive heat such as sunshine, fire or the like.
Notes
- **Do not touch the Wetted Handles**—Never handle this unit or its power cord while your hands are wet or damp. If water or any other liquid gets inside this unit, have it checked by a dealer.
Precautions
1. **Recording Copyright**—Unless it's for personal use only, recording copyrighted material is illegal without the permission of the copyright holder.
2. **Care**—Occasionally you should dust the unit all over with a soft cloth. For stubborn stains, use a soft cloth dampened with a weak solution of mild detergent and water. Dry the unit immediately afterwards with a clean cloth. Do not use abrasive cloths, thinners, alcohol, or other chemical solvents, because they may damage the finish or remove the panel lettering.
3. **Preventing Hearing Loss**
Caution
Excessive sound pressure from earphones and headphones can cause hearing loss.

- Once you have established a comfortable sound level, set the dial and leave it there.

- Handling Notes**
 - If you need to transport this unit, use the original packaging to pack it how it was when you originally bought it.
 - Do not place any electronic items on this unit for a long time, because they may leave marks on the case.
 - This unit's top and rear panels may get warm after prolonged use. This is normal. If you do not use this unit for a long time, it may not work properly the next time you turn it on, so be sure to use it occasionally.
 - A protective film is attached to the top side of this unit.

The backlighting lamp of LCD in this equipment contains mercury. Disposal of this material may be regulated due to environmental considerations according to Local, State or Federal laws. For disposal or recycling information, please contact your local authorities or the Electronics Industries Alliance: www.eia.org

NOTE: Cet équipement a été testé et trouvé conforme aux limites définies pour les appareils numériques de classe B, selon la partie 15 de la réglementation de la FCC. Ces limites sont conçues pour offrir une protection raisonnable contre les interférences nuisibles dans une installation résidentielle.
Cet équipement génère, utilise et peut émettre une énergie de fréquence radio et, si elle n'est installée et utilisée conformément aux instructions fournies, peut causer des interférences nuisibles aux communications radio. Cependant, il n'est pas garanti que des interférences ne se produiront pas dans une installation particulière.
Si cet équipement provoque des interférences qui gênent la réception radio ou télévisive, l'utilisateur est encouragé à essayer de corriger les interférences en adoptant une ou plusieurs des mesures suivantes:
- Réorienter ou repositionner l'antenne de réception.
- Augmenter la distance entre l'équipement et le récepteur.
- Brancher l'équipement à une prise électrique située sur un circuit différent de celui auquel le récepteur est branché.
- Demandez conseil au vendeur ou à un technicien radio/TV expérimenté pour obtenir de l'aide.

Exposition aux radiations:
Ce dispositif rpond aux exigences du gouvernement en matire d'exposition aux ondes radio. Cet appareil est conu et fabriqu pour ne pas dpasser les limites d'mission pour l'exposition  la radiofrquence (RF) tablies par la FCC (Federal Communications Commission) du gouvernement des tats-Unis.
La norme d'exposition pour les appareils sans fil utilise une unit de mesure appele SAR pour l'exposition  la radiofrquence (RF) tablies par la FCC (Federal Communications Commission) du gouvernement des tats-Unis.
Les tests pour SAR sont effectus en utilisant les positions d'utilisation standards acceptes par la FCC, avec l'appareil transmettant  son niveau de puissance maximale maximal dans toutes les bandes de frquences testes.
Ce dispositif a t test et rpond aux directives d'exposition de la FCC RF pour une utilisation avec un accessoire qui ne contient pas de mtal et un positionnement  0,5 cm du corps minimum.
Cet appareil est conforme  la Partie 15 de la rglementation de la FCC. Le fonctionnement est soumis aux deux conditions suivantes:
(1) Cet appareil ne doit pas provoquer d'interfrences nuisibles, et (2) cet appareil doit accepter les interfrences nuisibles qu'il reoit, y compris celles susceptibles de provoquer un fonctionnement non souhait.
Mise en garde FCC: Tous les changements ou modifications non expressment approuvs par la FCC peuvent annuler la conformit conforme aux dispositions de l'utilisateur  se servir de cet appareil.

Pour les Canada
Le prsent appareil est conforme aux CNR d'industrie Canada applicables aux appareils radio exempts de licence. L'opration est autorise aux deux conditions suivantes:
(1) L'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radiolectrique subi, mme si le brouillage est susceptible d'en compromettre le fonctionnement.
Ces appareils numriques de classe B sont conforms  la norme B15003 du Canada. Cet appareil et son antenne ne doivent pas tre situs ou fonctionner en conjonction avec une autre antenne ou un quipement, exception faite des radios intgres qui ont t testes.
La fonction de slection de l'indicateur pt est dsactive pour les produits commercialiss aux tats-Unis et au Canada.

Avertissement:
1) Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont rservs uniquement pour une utilisation  l'intrieur afin de rduire les risques de brouillage prjudiciable aux systmes de satellites mobiles utilisant les mmes canaux.
2) Le gain maximal autoris pour les dispositifs utilisant les bandes 5250-5350 MHz et 5470-5725 MHz doit se conformer  la limite de p.i.r.e..
3) Le gain maximal d'antenne permis pour les dispositifs utilisant la bande 5725-5825 MHz doit se conformer  la limite de p.i.r.e. spcifie pour les dispositifs utilisant ce point non point  point, selon ce cas.
4) De plus, les utilisateurs devraient tre aviss que les utilisateurs de radars de bande 5250-5350 MHz et 5650-5850 MHz et que ces radars pourraient causer du brouillage et/ou des dommages aux dispositifs LAN-LE.

5G Band 1 : 5G Band 1 est pour une utilisation en intrieur uniquement.

WEEE
Para evitar posibles daos a auditi, no escuche pas la son a ds niveles excesivos pendant de largos perodos.
ATTENTION:
AFIN DE RDUIRE LES RISQUES D'INCENDIE ET DE DCHARGE LECTRIQUE, NE PAS EXPOSER CET APPAREIL  LA PLUIE OU  L'ALUMINIDE.
DANGER:
AFIN D'EVITER TOUT DANGER DE DECHARGE LECTRIQUE, NE PAS OUVRIRE LE COFFRET  L'ARRIRE NI LE COFFRET  L'AVANT. NE PAS TOUCHER TOUT TRONION, DENTRETOISE OU DE REPARATION  UN TECHNICIEN QUALIFI.

Operating Environment
Operating environment temperature and humidity:
+5 °C to +35 °C (+41 °F to +95 °F), less than 85% RH (cooling vents not blocked).
Do not install this unit in a poorly ventilated area, or in locations exposed to high humidity or direct sunlight (or strong artificial light).

ESTABLISH A SAFE LEVEL:
- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.
- Once you have established a comfortable sound level, set the dial and leave it there.

Batteries and Heat Exposure
Warning
Batteries (battery pack and Wetted Handles) shall not be exposed to excessive heat such as sunshine, fire or the like.
Notes
- **Do not touch the Wetted Handles**—Never handle this unit or its power cord while your hands are wet or damp. If water or any other liquid gets inside this unit, have it checked by a dealer.
Precautions
1. **Recording Copyright**—Unless it's for personal use only, recording copyrighted material is illegal without the permission of the copyright holder.
2. **Care**—Occasionally you should dust the unit all over with a soft cloth. For stubborn stains, use a soft cloth dampened with a weak solution of mild detergent and water. Dry the unit immediately afterwards with a clean cloth. Do not use abrasive cloths, thinners, alcohol, or other chemical solvents, because they may damage the finish or remove the panel lettering.
3. **Preventing Hearing Loss**
Caution
Excessive sound pressure from earphones and headphones can cause hearing loss.
The Safety of Your Ears is Your Hands
Get the most out of your equipment by playing at a safe level - a level that lets the sound come through clearly without annoying ringing or distortion and, most importantly, without affecting your sensitive hearing.
Sound can be deceiving. Over your years, your hearing "comfort level" adapts to higher volumes of sound, so what sounds "normal" can actually be loud and harmful to your hearing. Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.
BE SURE TO OBSERVE THE FOLLOWING GUIDELINES:
- Do not wear any headphones or earphones for more than 1 hour at a time.
- Use caution or temporarily discontinue use in potentially hazardous situations.
- Do not use headphones while operating a motorized vehicle; the use of headphones may affect traffic hazard and is illegal in many areas.
ESTABLISH A SAFE LEVEL:
- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.
- Once you have established a comfortable sound level, set the dial and leave it there.

FOR COUNTRY CODE SELECTION USAGE

Note: The country code selection is for non-US model only and is not available to all US model. Per FCC regulation, all WiFi product marketed in US must fixed to US operation channels only.

Radiation Exposure Statement:

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration d'exposition aux radiations:

Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.

Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.
