

FCC/USCG Submission - External Photograph

Proposed FCC ID: TXJMT403-G

Model: MT403

Configuration Options: MT403, MT403G, MT403FF, MT403FG

Configuration	GPS	Auto-release
MT403		
MT403G	✓	
MT403FF		✓
MT403FG	✓	✓

Notes:

1. Models inclusive of GPS capability are similar to non-GPS units, with the visible distinction of the GPS Helix antenna's presence on the cap assembly.
2. Float-free models are built on the respective base unit, but provided with auto-release housing in place of manual release bracket. A small black adapter (refer Picture 8) is fitted to the base of the standard unit for this configuration. It is not removable without the use of tools.
