Dear Sir/ Madam,

RE: Application for approval of 406MHz EPIRB models MT403FG with variants, MT403, MT403G and MT403FF

Standard Communications Pty Ltd is a leading manufacturer and supplier of Emergency Position Indicating Radio Beacons (EPIRB) and Personal Locator Beacons (PLB) to the world market. Based in Australia, this company has been designing and manufacturing beacons for over 25 years under the GME brand name.

Please accept this application for issue of FCC ID TXJMT403-G.

Further I wish to advise that requested information has been sent to the following contact at the USCG so that they can issue a letter of recommendation to the FCC.

George Grills, P.E.
Commandant (CG-5214)
US Coast Guard Head Quarters
Lifesaving & Fire Safety Division

I remain at your disposal to provide clarification or further information as required regarding both our product and this application submission.

Yours faithfully

Craig Duncan
Project Engineering Manager
Standard Communications Pty Ltd
