

Installing and starting up your Mir:ror...

- 1 •• Go to **www.violet.net/mirror/start** to download the latest version of **mirware**, the Mir:ror software.
- 2 •• Install the software on your computer.
- 3 •• Check that your computer is still connected to the Internet.
- 4 •• Connect the Mir:ror to a USB port on your computer.
- 5 •• Follow the instructions given by the Registration application. Your Mir:ror will not work if you do not register it on violet.net.

A few things you (probably) should know about the Mir:ror.

- **INTERNET REQUIRED:** In order to function properly, the Mir:ror must be plugged into a USB port on a computer that's connected to the Internet.
- **REGISTERING ON VIOLET.NET:** In order to program and use your Mir:ror, Ztamps and Nano:ztags, you must first register and set up a (free) account on violet.net.
- **PROPER DETECTION:** The Mir:ror can detect objects up to a distance of a few centimeters vertically. To ensure proper detection of your Ztamps, show them or place them towards the front of the Mir:ror , i.e. away from the cord.
- **MULTIPLE OBJECTS:** The Mir:ror can detect several Ztamps simultaneously. However, if you show more than four Ztamps at a time, performance may be affected.

- **PERSONALIZE YOUR MIR:ROR :** you can personalize the base of your Mir:ror with a **Mir:ror Skin**. You can also make your own **Mir:ror Skin**. Remove the transparent plastic backing. Use it as a template to draw the right shape on any photo you like. Cut out your photo. Place it in the Mir:ror base and put the transparent lid back on.

Using Ztamps or Nano:ztags with the Mir:ror.

You stick a Ztamp on an everyday object. You assign Applications to it, which you can select on violet.net. When you Tash an object's Ztamp in front of your Mir:ror, any Applications assigned to the object will automatically launch. For example, you can stick a Ztamp on your umbrella, and assign the Weather Application to it. Show the umbrella to your Mir:ror , and your PC will give you the day's Weather forecast.

-

(Nano:ztags are small Rabbits with a Ztamp inside. All instructions apply to both loose Ztamps and Nano:ztags).

Adding applications to a Ztamp.

- Affix a blank Ztamp to your object (see conditions of use below).
- Place the Ztamp on the Mir:ror until you hear a sound.
- The Mir:ror detects that this is a new Ztamp, and takes you to **violet.net**.
- Give your new Ztamp a name (**e.g. JohnsUmbrella**).
- Go to the **My Applications** section. Click on **Add Application**.

- In the Applications directory, select one or more Applications you would like to assign to this particular Ztamp. Any new Applications will appear on the **My Applications** page.
- On the **My Applications** page, you can move around the blocks for each application assigned to the Ztamp, and place them in the order you would like the actions to be performed, if any.

Using a Ztamped object.

- Flash the Ztamp affixed to your Object in front of a Mir:ror, or place it on top.
- Any Applications you have assigned to your Ztamp will be launched and played.

Reprogramming a Ztamp.

You may delete or edit Applications assigned to your object's Ztamp, or add new ones at any time:

- Log on to your **violet.net** account.
- Select the Ztamp you would like to edit, in the Object chooser on the left of the page.
- Go to the **My Applications** section.
- Delete, edit, or reorganize the Ztamp's Applications.

A few things you (probably) should know about Ztamps.

- Ztamps contain tiny electronic chips, or tags, which communicate through High Frequency (RFID) when they come close to a device capable of reading them. The rest of the time, they do not emit any electromagnetic waves.
- A Ztamp's detection distance varies with the type of reader device (from a few millimetres to a few centimetres).
- Ztamps and Nanoztags you program also work with Violet's Nabaztag/tag.
- Affix the Ztamp to a part of the object that will be easy to show to the Mir:ror (which usually means underneath).
- Ztamps work best when affixed to the surface of your objects, or immediately below. Flat surfaces are also better than curved surfaces.
- Ztamps may not function properly if affixed to materials that conduct current or generate electromagnetic fields (metal, mobile phones, magnets etc.)
- Do not crease or fold the Ztamp, as this may disable it. Avoid exposing the Ztamp to shocks, do not write on it, staple or pierce it, or attempt to take it apart.
- Ztamps are not dishwasher-resistant. If soiled, simply wipe them with a damp cloth.
- The Ztamp is not a toy. Keep out of the reach of children under 36 months.

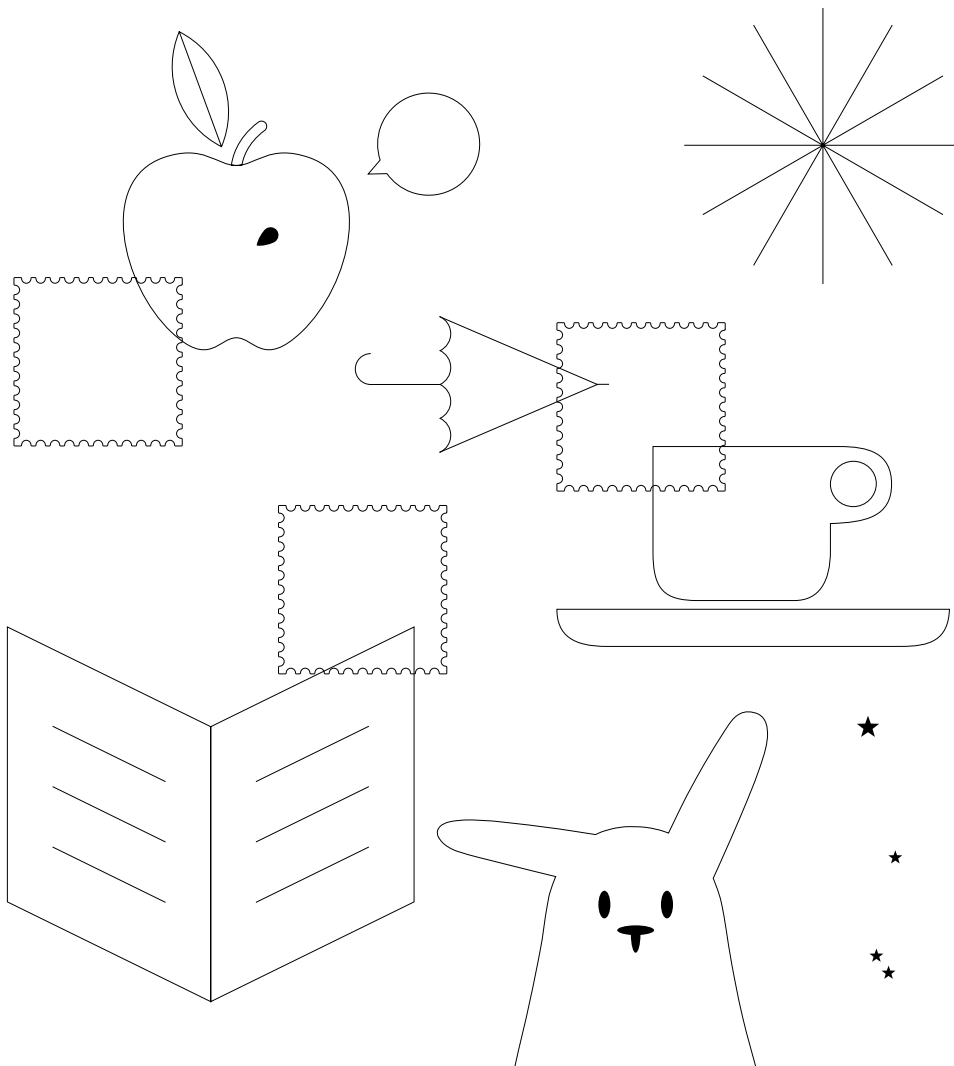

Even more Ztamps and Nano:ztags.

- **You'd like to bring even more objects to life, and easily trigger even more Applications with the Mir:ror ?**

• • You can purchase additional sets of blank Ztags or extra Nano:ztags.
Find out where to shop for them on violet.net.

Certification

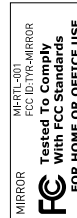

Violet (18, rue du Faubourg du Temple – 75011 Paris – France) certifies that the product Naboztag/tag (reference NA-RTL-002) conforms to the following directives : CEM - 89/336/CE • • BT - 73/23/CEE • • R&TTE - 99/5/CE • • FCC 15C
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. In accordance with FCC requirements, changes or modifications not expressly approved by VIOLET could void the user's authority to operate this product. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warranty coverage

Violet's warranty obligations are limited to the terms set forth below: International Warranty limited to one (1) year. Violet, as defined below, warrants this Violet-branded hardware product against defects in materials and workmanship under normal use for a period of ONE (1) YEAR from the date of retail purchase by the original end-user purchaser («Warranty Period»). If a hardware defect arises and a valid claim is received within the Warranty Period, at its option, Violet will either (1) repair the hardware defect at no charge, using new or refurbished replacement parts, or (2) exchange the product with a product that is new or which has been manufactured from new or serviceable used parts and is at least functionally equivalent to the original product, or (3) refund the purchase price of the product. Violet may request that you replace defective parts with new or refurbished user-installable parts that Violet provides in fulfillment of its warranty obligation. A replacement product or part, including a user-installable part that has been installed in accordance with instructions provided by Violet, assumes the remaining warranty of the original product or ninety (90) days from the date of replacement or repair, whichever provides longer coverage for the original end-user. When a product or part is exchanged, any replacement item becomes your property and the replaced item becomes Violet's property. Parts provided by Violet in fulfillment of its warranty obligation must be used in products for which warranty service is claimed. When a refund is given, the product for which the refund is provided must be returned to Violet and becomes Violet's property.

Exclusions and limitations

This Limited Warranty applies only to the product Mir:ror manufactured by or for Violet that can be identified by the «Violet» trademark, name, or logo affixed to them. Violet does not warrant that the operation of the product will be uninterrupted or error-free. Violet is not responsible for damage arising from failure to follow instructions relating to the product's use. This warranty does not apply: (a) to damage caused by use with non-Violet products; (b) to damage caused by accident, abuse, misuse, flood, fire, earthquake or other external causes; (c) to damage caused by operating the product outside the permitted or intended uses described by Violet; (d) to damage caused by service (including upgrades and expansions) performed by anyone who is not a representative of Violet or a Violet Authorized Service Provider; (e) to a product or part that has been modified to significantly alter functionality or capability without the written permission of Violet; (f) to consumable parts, such as batteries, unless damage has occurred due to a defect in materials or

This class B digital apparatus complies with Canadian ICES-003.

workmanship; or (g) if any Violet serial number has been removed or defaced ; or (h) if the product has been opened or (i) to the services offered by Violet. To the extent permitted by law, this warranty and remedies set forth above are exclusive and in lieu of all other warranties, remedies and conditions, whether oral or written, statutory, express or implied. As Permitted by applicable law, Violet specifically disclaims any and all statutory or implied warranties, including, without limitation, warranties of merchantability, fitness for a particular purpose and warranties against hidden or latent defects. If Violet cannot lawfully disclaim statutory or implied warranties then, to the extent permitted by law, all such warranties shall be limited in duration to the duration of this Express warranty and to repair or replacement service as determined by Violet in its sole discretion. No Violet reseller, agent, or employee is authorized to make any modification, extension, or addition to this warranty. Except as provided in this warranty and to the extent permitted by law, Violet is not responsible for direct, special, incidental or consequential damages resulting from any breach of warranty or condition, or under any other legal theory, including but not limited to loss of use; loss of revenue; loss of actual or anticipated profits (including loss of profits on contracts); loss of the use of money; loss of anticipated savings; loss of business; loss of opportunity; loss of goodwill; loss of reputation; loss of, damage to, or corruption of data; or any indirect or consequential loss or damage howsoever caused including the replacement of equipment and property, any costs of recovering, programming, or reproducing any Program or data stored or used with Violet products and any failure to maintain the confidentiality of data stored on the product. The foregoing limitation shall not apply to death or personal injury claims. Violet disclaims any representation that it will be able to repair any product under this warranty or make a Product exchange without risk to or loss of the programs or data.

Consumer protection laws

For consumers who are covered by consumer protection laws or regulations in their country of purchase or, if different, their country of residence, the benefits conferred by this warranty are in addition to all rights and remedies conveyed by such consumer protection laws and regulations. Some countries, states, and provinces do not allow the exclusion or limitation of incidental or consequential damages or exclusions or limitations on the duration of implied warranties or conditions, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary by country, state or province. This Limited Warranty is governed by and construed under the laws of the country in which the product purchase took place. Violet, the warrantor under this Limited Warranty, is identified at the end of this document according to the country or region in which the product purchase took place.

Obtaining warranty service

Please access and review the online resources referred to in the documentation accompanying this product before requesting warranty service. If the product is still not functioning properly after making use of these resources, please contact the Violet representatives using the information provided in the documentation. A Violet representative will help determine whether your product requires service and, if it does, will inform you how Violet will provide it. Violet will provide warranty service on products that are tendered or presented for service during the Warranty Period, as permitted by law. Warranty service may be restricted to the country where the product is purchased. Service options, parts availability and response times will vary according to country. You may be responsible for shipping and handling charges if the product cannot be serviced in the country it is in. In accordance with applicable law, Violet may require that you furnish proof of purchase details and/or comply with registration requirements before receiving warranty service. Please refer to the accompanying documentation for more details on this and other matters on obtaining warranty service.
