

**Project 06238-10: LADS IDM
Modular Approval
Method Change**

On behalf of Latest Advanced Digital Solutions, Professional Testing (EMI), Inc. is changing the modular approval method from the limited (as first submitted) to full modular for the In Dispenser Module (IDM) RFID tag reading transmitter.

Other documents have been revised accordingly.

Specific modular design requirements listed in FCC Public Notice DA 00-1407 are addressed in another document.
