This is in response to your reply on July 14, 2014. This application cannot be placed on audit since it is still pending. You should be able to file another 731 with equipment class NII.

Dear Edna,

EAS still not allow us to add NII equipment class on this filing. Could you please recheck if you have modified this application into composite device? The original filing is for DTS equipment class only. Thanks for your help.
