Subject: RE: Unable to complete FCC Submission

Hello

FCC ID: U2M-ZF7762 - Class II Permissive Change

Our suggestion is to have the applicant request dismissal of the pending DFS Class II Permissive Change. The non-DFS filing can then be submitted and granted. After the grant is issued, the DFS application can be filed again. There may be a slight delay in review time with this approach.

Please let us know whether or not the applicant wishes to accept this suggestion.

Also, please note that the Cover Letter described as PC2 Request Letter, uploaded 06/22/2010, into the DTS Class II Permissive Change filing appears to be signed by someone who is not listed as a contact in the filing. Please clarify.

Thank you.

Subject: RE: Unable to complete FCC Submission
To Whom It May Concern:

According to our records the pending submission for Ruckus Wireless, FCC ID: U2M-ZF7762, is a DFS C2PC which has been put on hold by order of the FCC.

We have a non-DFS W52 UNII submission which we are unable to submit due to this hold. Is there a way that we may complete this submission while the DFS C2PC is on hold without losing the place in the DFS queue?

If the above question's response is a no, may we submit for a Change of ID to bypass the DFS hold and then when the DFS is approved then complete the UNII submission with an additional C2PC?

Best regards,

**Jenn Paigly
