RFI Global Services Limited

Our ref: 6RC008 01

Date : 14 June, 2007

To whom it may concern,

Declaration of Implementation of Change to ABSR

Date of testing at RN Electronics: 18th to 20th April 2007

EUT: Base Station Radio ABSR1 serial number 6R508

FCC ID: U3R-ABSR

During testing of this equipment, there was a failure of radiated emissions above 1GHz. The output power of the transmitter was reduced by 0.7dB by adjusting the DPL variable in the transmitter signal processing software to a value of 400. This reduced the level of the spur such that the EUT passed the test.

This letter is to declare that this change will be implemented in all equipment which bears this FCC ID number.

Yours faithfully,

Mark Hunter
Senior Project Consultant, Plextek Limited.
