Re: Attestation of compliance modification to Corbin Russwin Access 800 WIFI ICLASS model TCWI1-M812/M813 when used with an Auxiliary 9vdc Power Supply

Dear Sir or Madam:

By signing this document, we acknowledge that modification was made to model TCWI1-M812/M813 to bring them into compliance with the FCC and Industry Canada regulations. The modification consisted of adding a Laird – Signal Integrity Products (formerly known as Steward) ferrite part number 28A2029-OA0 to the auxiliary power supply cable. We attest that the product will have this modification incorporated when manufactured and placed on the market.

Sincerely,

Steven Pfalzgraf
Applications Engineer
