Re: FCC ID: U4A-SCYPROX4

To Whom It May Concern:

The following application is submitted on behalf of our client, Assa Abloy, for evaluation of their model N2-PA/PK for certification under FCC Part 15.209 and 15.249.

The N2-PA/PK is a microprocessor controlled network lock. It uses local wireless communication between the lock and a hub to connect to an access control system. The model includes a 125kHz proximity reader and a 2.4GHz IEEE 802.15.4 radio.

The N2-PA/PK was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
