Re: FCC ID: U4A-YRHCPZB0LM

To Whom It May Concern:

The following application is submitted on behalf of our client, Assa Abloy Inc., for evaluation of their model YRMZB1 for a limited modular approval certification under FCC Part 15.247.

The YRMZB1 module utilizes an EM351 2.4GHz Zigbee radio with operation on standard channels. The YRMZB1 module is designed to be integrated into the following select remote controlled door locks:

YRD210 Push Button Deadbolt
YRD220 Touch Screen Deadbolt
YRD240 Touch Screen Deadbolt w/o Cylinder
YRT210 Push Button Lever Lock
YRT220 Touch Screen Lever Lock

The YRMZB1 module was evaluated in all host lock model variants in an orientation of typical installation per the aforementioned rules and were found to be in compliance.

Sincerely,
