Re: Class II permissive change request

Bologna, May 21th, 2009

Dear Sir / Madam,

This communication is for a request of a CLASS II Permissive Change regarding to FCC ID U4F0015. This is in order to add the new family of products that contain the radio module STARMODULE 910MHz.

The family is:

Powerscan M8500

Regarding the Powerscan M8500, this differs from the previous certified Powerscan M8300 family by using a different optical board and electronic mother board in combination with STARMODULE 910 MHz radio module.

Kind regards,
R. Cacioppo
