Subject: Request of class II permissive change for products covered by FCC ID : U4F 0015 and notification of new model names

Dear Sir/Madam,

This letter is for asking you a class II permissive change regarding the product Dragon M 131 . This because we have decided to use a new antenna inside it. At the same time I would like to inform you that we will manufacture also the products : Powerscan M 8300 , Powerscan M 8301 and Powerscan M 8302, which are the same as Dragon M131 with the exception of some small parts (as plastic gaskets) which do not have impact on the radio behaviour of the devices. Finally , the cradles OM-3000 and OM-3010 covered by the FCC ID U4F 0015 will be manufactured also with the new names BC-8060 and BC-8030. These are exactly the previous units a part from the new names used.

Yours sincerely

R. Cacioppo

Quality Assurance Manager
