Re: Class II permissive change request

Bologna, April 2th, 2007

Dear Sir / Madam,

This communication is for a request of a CLASS II Permissive Change regarding FCC ID U4G0019. This is in order to add two new models to the family :

DLBJET 701-104-455
DLBJET 711-104-455

The units differs from the already certified model DLBJET 501-104-455 and DLBJET 511-104-455 because they use a new WIFI card, that is FCC certified with FCC ID TWG-SDCCF10G. The antennas used with this new WI-FI card are the same listed in the certification of the card itself.

Kind regards
Paola Chientaroli

A handwritten signature in cursive script that reads "Paola Chientaroli".
