Columbia MD 21046

Subject: Request for Class 2 Permissive Change

Reference: *[FCC ID] U4G004W*

To The Commission:

Hereby we request a calss II permissive change for the Datalogic module DL-MSD30AG, FCC ID: U4G004W.
The module was removed from the interface board to solder it directly to the end user product. The module still fulfills the FCC requirements of a modular approval.
Sincerely

Name: Holger Leutfeld

Control circuits
1. We solder the SIP module directly on the Daughter board
1. RF antenna trace is designed following the Application guide
1. There is the antenna connector
2. There is no digital connector
OUR IDEA IS TO MAKE THE FCC CERTIFICATION OF THIS PIECE OF PC AND INTEGRATE IT IN OUR MODULAR APPROVAL APPROACH

The current configuration
