**Insert the Joya Touch into the Single Slot Dock Charge Only**

Insert the device into the dock with the screen facing front and the head facing down:

Handheld Models

Pistol Grip Models

To confirm the correct insertion, the notification LED starts blinking.

The Joya Touch gets warm during charging. This is normal and does not mean a malfunction.

Do not put any foreign object such as, but not limited to, coins, paper clips, stickers inside the slot of the dock (see the picture below).

## Powering the Dock

To prevent the risk of short-circuiting, first plug the power supply into the power jack on the back of the dock, then plug the power supply into a power outlet.

Use only the Datalogic power supply included in the box to power the Joya Touch Single Slot Dock Charge Only.

\* The Joya Touch should be charged at an ambient temperature between 0 and 35° C to achieve the maximum charging rate. Never charge the main device in a closed space where excessive heat can build up. Close to the limits of the working temperature, some display and/or battery performance degradation may occur.

\*\* Multiple rapid humidity and/or temperature variations may cause condensing.
