Equipment Approval Services

Post Office Box 358315

Pittsburgh, Pennsylvania 15215-5315

Equipment: XV-1000

To Whom It May Concern:

We, them manufacturer of the captioned equipment, hereby declare as follows:

1. Justification requesting the frequency ranges of 146-174 MHz to appear on the face of the FCC Grant of Certification. This frequency range is regarded as usual & customary by United States Federal Government and its various departments, user organizations and the military. The Frequency programming and related capabilities of the equipment are defined by the software capabilities and programmed by the manufacturer and/or authorized dealer. Programming of radios to operate on approved frequencies, as requested by the customer is performed by the manufacturer and/or approved dealer. Marketing plans to ensure that USA users, other than those specifically identified in this letter, not operate within bands 146-150 MHz, as controlled by the users' FCC station license.
2. This radio transceiver has been developed for global applications and incorporates programmable tuning capabilities. All radio programming capabilities are restricted to manufacturer and/or dealer access. The manufacturer and dealers are aware of tuning and use requirements for prospective markets and adjust equipment programming on application basis.
