RE: Class II Permissive Change for U5X-RE927/8310A-RE927 application.

To Whom It May Concern,

This application is for a Class II Permissive Change for the RE927 product. Passive parts on the transmitter circuit for this product were adjusted for higher tolerance. Documents included with this submission show the changes made to the product, and a new test report showing the passing test data after the changes.

Changes made to the transmitter include passive part value changes to the printed PCB antenna, no other changes to the circuit electrical design or PCB layout were changed.

Documents included:

- Schematics
- Test Report
- Test Setup Photos

No other documents pertaining to this product were affected by this change.

Sincerely,

Paul Saldin
Vice President
