Manufacturer's Statement

FCC ID location justification

FCC ID: U6XF2BTE03
FCC ID: U6XF2BTE04
FCC ID: U6XF2ITE02

TO WHOM IT MAY CONCERN

We, the undersigned, hereby submit the justification for placing the FCC ID in the Associated User Manual for the Hearing Aids having the above-mentioned FCC IDs.

According to KDB Publication 784748 D01, when the device is so small, or for such use that it is impracticable to label with a font size that is four points or larger (and the device does not utilize electronic labeling), then the FCC ID shall be placed in the user manual.

Hearing Aids having the above-mentioned FCC IDs are so small, and considering the dimensions of the equipment and the label area, it is impracticable to label FCC ID with a font size required on the devices.

For comparison purpose, below are set the dimensions (in millimetres) for the label of the tradename. The biggest letter that can fit is 1.2 mm (roughly 3.4 points), which is smaller than the required four points or higher for the font size of FCC ID labeling on the device.

Therefore FCC ID label is placed in the User Manual.

Yours sincerely,

Asif Muhammad
