RE: FCC I.D. APPLICATION FOR NEW I.D.

To Whom It May Concern:

In regards to the Original FCC ID # I7ORL328U, with initial Grant Date of 03/11/2005, we state that the original test reports still apply, and physically the products will remain the same, except the only difference will be a change in the brand name and model numbers of the items.

The original test results continue to be representative of and applicable to the equipment with the new FCC I.D.

A handwritten signature in black ink, appearing to read "Richard Klein", is positioned above the printed name.

Richard Klein, CEO
Klein Electronics, Inc.
