Subject: Class II Permissive change for FCC ID: U8A-CWBSA25-4

Attention: Director of Certification

This is to request a Class II Permissive change for FCC ID U8A-CWBSA25-4 to reflect the FCC Part 27, Subpart C, " Broadband Radio Service and Education Broadband Service frequency " allocation of 2496 - 2690 MHz in this submission.

We would like to have the complete frequency band indicated to reflect the above. Keeping in mind, the WiMAX radio (CWBSA25-4) lowest centre frequency at 5 MHz carrier will be 2502.75 MHz and at 10 MHz carrier it will be 2505.25 MHz.

regards

Garth MacDonald
WiMAX NPI Program Office
