

U31 MAC controller and baseband processor (RT2561)
 Determine the modulation type (DBPSK, DQPSK, CCK, OFDM) send out Tx I & Tx Q signal Radio IC (RT2527).
 Mixed Tx I & Tx Q signal with RF local signal (2412~2462MHz). Send out transmission signal.
 US Power Amplifier (SST12LP07) to amplify the signal.
 Tx/Rx switch antenna select switch
 Dipole Antenna transmission signal is send out from signal antenna.
