Re: FCC ID: U9O-RF200A

To Whom It May Concern:

The following application is submitted on behalf of our client, Synapse Wireless Inc., for evaluation of their model RF200A for certification under FCC Part 15.247.

The RF200A is a stand-alone module consisting of a single printed circuit board which is designed to be integrated into specific host devices. The module operates in the 2.4 GHz ISM band. The model RF200A was evaluated with two antenna configurations as documented in the submission package.

The FCC ID: U9O-RF200A was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, stylized 'R'.
