Re: FCC ID: U9O-RF220SU

To Whom It May Concern:

The following application is submitted on behalf of our client, Synapse Wireless Inc., for evaluation of their model RF220 for single modular approval certification under FCC Part 15.247.

The RF220 is an IEEE 802.15.4 RF module. The radio contains two antenna paths differentiated by use of an RF switch. Path one terminates into an external U.FL connector, and path two terminates into a R-SMA connection.

The RF220 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
