Overview

The model 444-2250 is an 802.11a compliant wireless module, which allows a turnkey solution for volume production of wireless audio speakers. Summit Semiconductor is seeking single modular approval.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.

Signature

A handwritten signature in blue ink that reads "Dave Tolman".
