Model	444-2251
FCC ID	UA9800
Agent	
Approval Type	Original
Equipment Class	NII Unlicensed National Information Infrastructure Tx, DTS Digital Transmission System
Rule Part	15.247, 15.407

Overview

The model 444-2251 is an 802.11a compliant wireless master module, which allows a turnkey solution for volume production of wireless audio speakers. Summit Semiconductor is seeking single modular approval.

Since this device is a master UNII modular device, KDB inquiries were necessary to get FCC approval for this application. The FCC PBA process was followed.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.

Signature

A handwritten signature in blue ink that reads "Dave Tolman".
