Dear Application Examiner:

Awarepoint Corporation is submitting this application for the Class II Permissive Change of their Model RM1 modular radio transmitter, FCC ID: UAG-RM1.

Awarepoint is seeking authorization of a co-located radio configuration. Two RM1 radio modules will be installed less than 20cm apart inside of Awarepoint's Model S2C Sensor. The radios will be used only as a mobile transmitter (greater than 20cm away from the user). The antennas will be separated more than 5 cm. MPE estimates are documented in a report that demonstrates compliance of this co-located radio configuration.

The technical report and exhibits demonstrate continued compliance with FCC rules 47 CFR 15.247 as a DTS transmitter. .

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Brian Lee
