Re: Product Variations for Awarepoint Tag model T2
FCC ID: UAG-T2
IC Number: 7348A-T2
Applicant: AwarePoint Corporation

Our product, Awarepoint Tag Model T2 has two variations: T2-S and T2-A. Both products use the same electronics but have minor differences in their plastic enclosure. The T2-S is a plain case and the T2-A has an additional piece of plastic on the top. The differences are trivial and do not affect RF performance.

Sincerely,

AwarePoint Corporation
Derek Smith, Director of Systems Engineering
