RE: Explanation to FCC correspondence 420475, 420478, 420481

Dear FCC,

Regarding the above correspondence numbers for the following applications:

FCC ID: UAY-W8997-M1216  
 TC No.: TC778100  
 TC No.: TC149225  
 TC No.: TC305490

After investigating the application filings, we discovered the test lab that performed the testing (TW2022) does have the necessary scope as shown below. However, a different test lab with a similar registered name and the same address (TW1085) was incorrectly selected on the Form 731 during upload.

Please refer to below snapshots for reference:

In reference to the highlighted portions, the test labs have a highly similar name but different scopes and contacts:
