Product Differences Declaration

To whom it may concern,

We, Deliberant LLC, hereby declare:

The product model APC Button AF is identical to the model APC Button with regards to the PCB layout, interior structure, and electrical circuitry, as tested by China Certification & Inspection Services Co., Ltd, with the exception of the following differences:

- 1) Power supply: The APC Button AF supports 802.3af power supply by using a different internal power supply IC compared to APC Button. APC button supports only passive PoE with reduced maximum voltage up to 24VDC.
- 2) PCB version marking.
- 3) Model name APC Button AF and APC Button.

Regards,
