FCC Rules: Part 15.247
Re: Class 2 change

Gentlemen:

The 731 form and application have been electronically submitted and any attachments will be up loaded to your web site to be used in obtaining a grant of certification.

Short-term

Pursuant to DA 04-1705 of the Commission's public notice, we request **short-term confidential treatment** for the following information until 45 days after the Grant Date of Equipment Authorization in order to ensure sensitive business information remains confidential until the actual marketing of the device:

External Photos, Internal Photos, Test Setup Photos, User Manual

Permanent

Deliberant LLC requests that the material in the **Parts List, Schematics, block diagram, and Operational Description** be withheld from public disclosure in accordance with Section 0.459 of the Commissions Rules, 47 C.F.R. 0.459, following grant of the application.

Change to Equipment

The change to the equipment, in relation to the original equipment submittal, included placement of the transmitter inside a metal enclosure and increasing the antenna gain to 23 dBi. Testing was performed to verify the equipment continues to meet all the applicable rules and requirements of the Code of Federal regulation 47. Testing confirmed the changes made do not degrade the characteristics allowable and acceptable by the Commission. No change to transmitter or other specifications were affected by the antenna change.

Any special fees for request of confidentiality will be submitted with the application.

Should you require any further information, please contact the undersigned.

Thank you for your consideration in this matter.

Sincerely,

Scot Rogers
