- Parts list (BOM)
- Block diagrams (GSM, Bluetooth & RFID)
- Operational Descriptions **
- Internal photographs *
- FoTCB Form A and its Supplement
- Tune up Information

The above information contains trade secrets and proprietary information not customarily released to the public. The public disclosure of this information might be harmful to the applicant and provide unjust benefits to its competitors. The applicant understands that pursuant to rule 0.457d, disclosure of this application and all accompanying documentation will not be made before the date of the grant for this application.

* The product casing is secured by security screws requiring use of a proprietary tool for removal (not freely available). Therefore permanent confidentiality is requested on internal photographs.

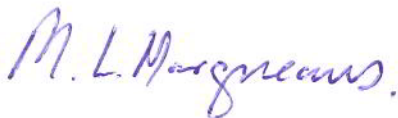

** Additionally the Operational Descriptions contain proprietary information relating to the device implementation used and also contain internal photographs of the devices "in-situ". This information is not customarily released to the public.

2. Short Term Confidentiality – 45 Days Requested

- User manual
- Test set-up photographs
- External photographs

The above documents contain proprietary information relating the Industrial Design of the product, which has not yet been released, to the market. The public disclosure of this information prior to market launch may be harmful to the applicant and provide unjust benefits to its competitors. A period of 45 days from the Grant issue date is requested to protect this information before formal market launch. As soon as the launch date is fixed we will inform again to cancel this restriction.

Yours sincerely
