I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. Please be informed that the Government of Canada has changed it's documentation requirements for Canada radio approvals by TCBs. Effective September 1<sup>st</sup> 2007, TCBs are required to provide more robust documentation of all filings. This includes providing signatures. Consequently we are required by both Canada and our accreditors to secure proper signatures from responsible parties on all legal documentation. This includes confidentiality letters, application forms, REL listing letters, and RSS-102 attestations. Kindly provide properly signed letters as previously indicated.
