Attestation Letter

Re: FCC ID: UCZMC2110

To: Federal Communications Commission

Subject: FCC Request for additional information as follows:

I, the undersigned, declare that the output power of the given device will be set and tuned to 9.5 dBm as the maximum, on the main RF chipset that controls the power. While selling and marketing to end user, power level will permanently be fixed at max power level as declared upon installation guide or User's Manual, and it cannot be changed and activated by any mean, such as software and hardware from End Users.

Best regards,

Mr. Niles K.V , Director, Quality Assurance

Lorex Technology Inc.
