GD88BT Portable Speaker
With Bluetooth

Quick Start Guide

Fcc information

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Disclaimer

All the information, design and specifications contained in this manual were correct at the time of publication. However, as the product is under continuously upgrading, the final device may have a slightly difference in appearance or modified functionality than presented in this manual.

Safety precautions

- Never subject speaker to extremes of light, temperature, moisture or vibration.
- Do not use or store speaker in a location subject:
A. Extreme high temperature, such as in a sun-heated car
B. Direct sunlight
C. High humidity or places with corrosive substances
D. Sub-zero condition, especially during winter.
- Clean only with a dry cloth.
- Don't block any of the ventilation openings, install according to the manufacturer's instructions.
- Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way.

$\mathsf{C}\mathsf{\epsilon}$ The symbol means that the unit complies with European safety and electrical interference directives.
