## Permission to file the request of change for the FCC ID UFWOPERADUO

To whom it may concern:

IDS has applied for a grant under FCC Part 15 F for its product OPERADUO (FCC ID: UFWOPERADUO); on 06/06/2014 the Federal Communication Commission has issued a grant of equipment authorization for this product.

IDS is now requesting to change the FCC ID from UFWOPERADUO to UFW-OPERADUO in order to have the grant aligned to the ones issued by the FCC for other equipment manufactured by IDS (e.g. UFW-STREAMX200, UFW-STREAMX600, UFW-IBIS-KU, etc).

We also declare that there is no change in the design, circuitry, or construction, and that the original test results continue to be representative of and applicable to the equipment.
