

Technical data AG 91 M

Technische Daten WISI AG 91 M

Frequenzbereich frequency range	2400-2500 MHz Bluetooth /WLAN
Gewinn gain	3 dBi
Eingangsimpedanz input impedance	50 Ohm
Polarisation polarization	linear

Abmessungen dimensions (W x L x H)	28 mm x 60mm x 8 mm
Temperaturbereich temperature range	-40- 105 degree Celsius
Anschluß connection cable	RG 174 lenght specified by customer
Steckverbinder connector	Fakra Kuppler Fakra jack (female)

Vorteile advantages:

- Sehr kleine flache Bauform small and flat housing, housing appealing and compact
- Montage auf Metall möglich antenna works also on metal surfaces
- Antennengehäuse IP 67 water proof
- Montage mit Klebepad easy mounting by adhesive tape
- Geeignet für Bluetooth und WLAN designed for Bluetooth and Wireless Lan

Radiation Pattern:
