1. **Antenna and connectors:** the photograph indicates a standard polarity, not reverse polarity “N” type RF connector with what appear to be left-hand threads. Please confirm if the threads are left-hand or right handed.

Yes, the connector use left-hand threads.

2. **AC Power-Line Conducted Emissions test photographs:** please supply photographs of the test setup for this test.

Please see the Test setup Photos of EUT\_Rev1. The Conducted Emissions test photo have added it.
