Dear Application Examiner:

Please accept this cover letter as DRS Tactical Systems, Inc. request for a class II permissive change per FCC Rule 2.1043 (b) (2). The device in question is a Micro Star International Bluetooth module (FCC ID: UGL980026000BT) and an Intel PRO/Wireless 3945 ABG Network Module (FCC ID UGL980026000WF). The purpose for the class II permissive change is to show the ability of the 802.11 a/b/g Wlan card installed in the tablet PC can simultaneously transmit with the Micro Star Bluetooth module. DRS would like to take responsibility of the device as used in its application. The device has been successfully tested in its DRS intended application by an independent test lab (Celltech Labs and TIMCO Engineering).

Thanks you for your consideration in this matter. If you have any questions regarding the above, please contact me at [Abelardinelli@DRS-TS.com](mailto:Abelardinelli@DRS-TS.com) or by telephone at (321) 727-3672 ext. 3022.

Regards,

Alex Belardinelli  
Sr. Test Engineer
