Per section 15.31(a)(5), when the device is so small that it is not practicable to put this statement on the device, it can alternatively be placed in the instruction manual. Please submit either a revised label, or a revised user's manual, with the statement included.
- 2) The schematic diagrams submitted are incomplete. Please submit the full set of schematics
- 3) Please submit a plot showing the 20 dB occupied bandwidth of the transmit signal.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website.
