

AMERICAN TELECOM
SERVICES, INC.
2466 Peck Road, City of Industry,
CA 90601 USA

Purpose of Change (Base)

To: ITS
From: AMERICAN TELECOM SERVICES, INC.

We have changed the cosmetic due to marketing reasons. We confirm the submitted model **RA226XXX** is same as previously certified model **RA216XXX**, **FCC ID: UGXRA2184BB** in electronic, electrical (same schematics), and RF module design. These models are identical in RF portion and antenna in the base and handset unit such that the modifications doesn't intend for change in maximum power, field strength ratings and operating frequency.

The only difference between the old and the new model are:

1. PCB is re-layout.
2. The line sense and parallel off hook detection circuit is removed.
3. An external 8Mbit flash (SST39VF800) is removed.

Sincerely,
