Subject: Replacement of Internal Photos of MWTD-S9

We are requesting to update the internal photographs of our MWTD-S9 Transmitter with the chip ID numbers blacked out. MYE Entertainment made a significant investment in the research and development of the chips used in our design and wishes to protect our investment against competitors by blacking out the chip ID numbers (a practice used by our own competitors). The chip ID numbers are removed for production of the product.

Best regards,
