Re: FCC ID: UIDDG1670

To Whom It May Concern:

The following application is submitted on behalf of our client, Arris International, Inc., for evaluation of their models DG1670A, DG1660A for certification under FCC Part 15.247.

The DG1670A combines two analog voice lines, a 4-port Gigabit Router, and 802.11n radios into a single device capable of supporting both home and small office applications. The DG1670A and DG1660A are electrically identical with respect to the RF and differ only slightly.

The DG1660A model has the same enclosure and PCB layout as the DG1670A, except the MoCA Chipset is depopulated.

The DG1670A was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.
