

Model differences with regards to Wi-Fi. All other IC manufacture changes has no impact on radio performance.

Manufacture	UIDTG1682-2	UIDTG1682-3
Skyworks (2.4 GHz)	discrete PA & LNA/SW	Skyworks FEM
Skyworks (5 GHz)	PA & SW/LNA	Improved PA & SW/LNA

FEM – is a single-chip integrated front end modules

LNA – is a low noise amplifier

PA – power amplifier

This application covers two models that have the same radio portion and slightly different digital portion.
