RE: Extended Frequency Justification, FCC ID: UIPSQ400M1311

To Whom It May Concern:

We, 4RF Limited, would like to submit the following justification to show the frequency range as 406.1 – 470 MHz on the Grant of Equipment Authorization for equipment.

This frequency range is applicable to the Federal Government and FCC Part 90 radio communication systems that include public agencies, emergency services, commercial, business and industrial services.

This equipment will be marketed to the users listed in these services that account for the majority of radio communication operations on this band (refer to the list below).

| Frequency: | Application: | Grant Notes |
|---------------------|--------------|-------------|
| 406.1 – 454 | Part 90 | EF |
| 454 – 456 | Other | EF |
| 456 – 462.5375 | Part 90 | EF |
| 462.5375 – 462.7375 | Other | EF |
| 462.7375 – 467.5375 | Part 90 | EF |
| 467.5375 – 467.7375 | Other | EF |
| 467.7375 – 470 | Part 90 | EF |

Also the frequency of operation of the equipment cannot be programmed by the operator to transmit on frequencies other than those programmed by service or maintenance personnel.

Programmed operating frequencies shall be in strict accordance with the above listed frequencies and the user's FCC license conditions.

From the FCC KDB634187 guide, as an alternative to listing the exact frequencies, we acknowledge that FCC rules would be violated if the equipment were programmed and operated on unauthorized frequencies.

For and on behalf of
4RF Limited

Sincerely,

A handwritten signature in black ink, appearing to read 'Paul Young'.

Paul Young
