- Company name
- Address
- Phone number or website (contact info)

MELCO's request for FCC

Regarding the marking requirement, MELCO requests to confirm whether the following documents are described in the user manual of the vehicle.

- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines as this equipment has very low levels of RF energy.
- This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.

Since this device is always used with vehicle, it is not sold to general end users separately.
Therefore, there is no user manual of this device by alone.
