RE: FCC ID: UJHNR20463AF34606_ATCB004342
Attention: Tatsuya Arai / Yoshinobu Asai

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the FCC ID label shown on the device per the label location exhibit reads FDDID and not FCC ID:. Please correct the label to the proper format FCC ID:
2. Please note that the FCC ID number shown on the label is not the same as that shown on the proposed FCC ID nor in the application documentation. Please correct the label location exhibit to reflect the actual FCC ID.
3. Please note that in many of the plots for 2402MHz there is a signal just to the low frequency side of the fundamental. It is unlikely that this is part of the actual BT signal and may in fact be an ambient. Please explain what this signal is and if it is part of the fundamental, please explain this anomaly as it is not a typical BT signal.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
