
Limited Module Approval Request Letter

Date: 2016/4/22

Subject: Module Approval

FCC ID: UK7-NDJ2

To Whom It May Concern:

We, Sporton International Inc., are authorized by Fossil Group, Inc. to have their state-of-the-art Bluetooth Low Energy Module approved under module approval authorization. The application of this module is specified to portable host equipment. The requirements regulated in CFR47 Part 15.212 have been fulfilled and clearly explained below.

1. The requirement of buffered inputs: Buffered data inputs stage has been integrated in U2.
2. The requirement of power supply regulation: The power regulator has been integrated in U7.
3. The requirements of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
4. The requirement of labeling: The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.
5. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.
6. The requirement of RF exposure: N/A as exempted due to low output power.

Below items have not been fulfilled in module approval request:

1. The requirement of RF shielding: No shielding of the radio portion. But end product has its own-shielded case, because material of exterior is metal.
2. The requirement of stand-alone test configuration: The EUT is a limited module which only limited to the host (brand: Fossil / model: FTJ1100), thus EUT was installed to the host (brand: Fossil / model: FTJ1100) to perform all the tests.

Please do not hesitate to contact me for any questions of this request letter. Thank you.
